

**Voluntary Safety Data Sheet (SDS) relating to TRANSLUCENT flexible coverings for stretch ceilings and walls (Product codes 307T / 308T / 309T)**

*These products are neither "substances" nor "mixtures" within the meaning of REACH, but "articles". As a result, there is no requirement for the submission of an SDS and they are not listed as dangerous.*

---

SECTION 1: IDENTIFICATION OF PRODUCT AND COMPANY/UNDERTAKING

1.1 Product identifier:

Translucent flexible covering (product codes 307T, 308T and 309T) made of polyurethane-coated polyester mesh for stretch ceilings and walls in accordance with standard EN 14716: 2005.

1.2 Relevant identified uses of the product and discouraged uses:

Flexible covering for stretch or suspended ceilings and walls in the construction industry.

1.3 Details of the supplier of the safety data sheet:

Name: CLIPSO PRODUCTIONS  
Address: 5, rue de l'Église, 68800 VIEUX THANN, FRANCE  
Telephone: +33 (0)3 89 37 10 84  
Fax: +33 (0)3 89 37 48 92  
SIRET No.: 449 336 692 00024  
SAS with capital of €150,000

1.4 Emergency telephone number

Strasbourg poison control centre: +33 (0)3 88 37 37 37

---

SECTION 2: HAZARD IDENTIFICATION

2.1 Classification of product:

As an "article" according to REACH, the translucent flexible covering (product codes 307T, 308T and 309T) is not classified as a hazardous product according to applicable regulations.

2.2 Label elements:

Labelling within the meaning of the directives and regulations relating to substances and mixtures is not applicable to the translucent flexible covering (product codes 307T, 308T and 309T).

2.3 Other hazards:

- In normal use, no adverse effect on health or on environment.
- In case of product combustion, heat is generated and fumes are formed which should not be inhaled.
- After a fire, no effect has been observed relating to any pollution due to the release of extinguishing water in the sewage system.

---

SECTION 3: COMPOSITION/INFORMATION ON COMPONENTS

Article:

Flexible covering made of polyester mesh (50%) with polyurethane coating (50%).  
Weight per square metre: 200g/m<sup>2</sup>

Article 33 of REACH: as far as we know, no substance of very high concern within the meaning of REACH in the candidate list (for authorisation) or annex XIV (subject to authorisation) of REACH is present in the product at concentration above 0.1% in mass.

---

#### SECTION 4: FIRST AID MEASURES

##### 4.1 Description of first aid measures

- Inhalation: Not specifically applicable.
- Skin contact: Not specifically applicable.

However, during a fire, the melted product could cause burns. Rinse with plenty of water; do not remove clothes (they may be stuck to the skin). Call a doctor.

- Eye contact: Not specifically applicable.
- Ingestion: Not specifically applicable.

##### 4.2 Most important symptoms and effects, acute and deferred:

No adverse effects known to date, apart from the classic effects of massive exposure to dust, however this should not occur under normal conditions of use.

##### 4.3 Indication of any immediate medical attention and special treatment needed:

No special treatment is required under the normal conditions of use.

---

#### SECTION 5: FIREFIGHTING MEASURES

##### 5.1 Extinguishing methods:

Suitable extinguishing methods: ABC powder - Water spray

##### 5.2 Special hazards arising from the product:

No other important information available.

##### 5.3 Advice for firemen:

Self-contained breathing apparatus recommended, as with most fires.

---

#### SECTION 6: ACCIDENTAL RELEASE MEASURES

##### 6.1 Personal precautions, protective equipment and emergency procedures:

None required under normal conditions of use; solid and flexible non-hazardous product.

Reference: Clipso SDS - Created on: 27/08/2012 - Version 1 -

---

6.2 Environmental precautions:

None required under normal conditions of use; solid and flexible non-hazardous product.

6.3 Methods and material for containment and cleaning:

Manual storage of coverings.

6.4 Reference to other sections

Not applicable.

---

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling:

No particular measure is required.

7.2 Conditions for safe storage, including any incompatibilities:

- Prevention of fires and explosions: no particular measure is required.
- Storage: no particular measure is required.
- Other storage indications:
  - o Covering delivered in rolls:
    - CLIPSO coverings supplied in rolls are to be stored flat, on a flat surface over the entire length of the roll.
    - Do not stack the rolls.
    - The recommended storage conditions and temperatures are as follows:
      - The storage area must be closed and covered, away from the elements and direct sunlight.
      - CLIPSO coverings can withstand temperature variations between 0 and 35°C during storage.
  - o Covering delivered cut to measure:
    - CLIPSO fabrics must always be stored in their protective sleeves (packaging is ideally opened at the last minute, just before the product is fitted).
    - Remember to store CLIPSO fabrics in a room where the ambient temperature is between 0°C and 35°C.
    - Do not place anything on the packaged products.

7.3 Specific end use(s)

No additional specific provisions.

---

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters:

Ingredients with occupational exposure limit values:

The article does not contain significant quantities of substances with occupational exposure limit values.

8.2 Exposure controls:

General health and safety measures:  
Follow the usual industrial health and safety measures.

Personal protection: according to the general safety rules of the textile industry.

---

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties:

- Physical state: Solid
- Relevant finished product codes: 307 T, 308 T, 309 T
- Fire classification: B-s1-d0 (Standard EN 14716)
- Colours: Translucent white, Translucent yellow, Translucent pink, Translucent green, Translucent blue
- Odour: Odourless
- Auto flammability temperature: Above 450°C.
- Thermal decomposition: From 350°C.
- Explosion characteristics: Non-explosive
- Mass/m2: 200g/m2

### 9.2 Other information

Not applicable.

---

## SECTION 10: STABILITY AND REACTIVITY

### 10.1 Reactivity:

No particular reactivity under normal conditions of use and storage.

### 10.2 Chemical stability:

The product is stable under normal conditions of use and storage.

### 10.3 Possibility of hazardous reactions:

None under normal conditions of use and storage.

### 10.4 Conditions to avoid:

None under normal conditions of use and storage.

### 10.5 Incompatible materials:

None under normal conditions of use and storage.

10.6 Hazardous decomposition products:

None.

---

#### SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Toxicological effects:

No known risk of toxicological effects under normal conditions of use.

---

#### SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity:

No known risk of toxicological effects on the environment under normal conditions of use.

12.2 Persistence and degradability:

Non-biodegradable product. In water, the products floats; as it is insoluble and has a bulk specific density that is less than that of water, it does not degrade when it comes in contact with water.

12.3 Bioaccumulative potential:

Not applicable.

12.4 Mobility in soil:

Not applicable.

12.5 Results of PBT and PvB assessment:

Not applicable.

12.6 Other adverse effects:

None.

---

#### SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods:

Depending on locally applicable requirements, the product may be disposed of as solid waste or incinerated in a suitable facility.

Material or thermal recycling of the product and packaging is recommended.

---

#### SECTION 14: TRANSPORT INFORMATION

14.1 UN number:

Not applicable.

Reference: Clipso SDS - Created on: 27/08/2012 - Version 1 -

---

14.2 United Nations shipping name:

Not applicable.

14.3 Transport hazard class(es):

Not applicable.

14.4 Packaging group:

Not applicable.

14.5 Environmental hazards:

Not applicable.

14.6 Special precautions for users:

Not applicable.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code:

Not applicable.

---

#### SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the product:

French regulations: Storage may be subject to the regulations applicable to facilities listed for environment protection (ICPE, section 2663).

REACH regulation 1907/2006

The translucent flexible covering (product codes 307T, 308T and 309T) is an "article" within the meaning of REACH.

15.2 Chemical Safety Assessment

"Articles" are not subject to such assessment or the production of exposure scenarios within the meaning of REACH.

---

#### SECTION 16: OTHER INFORMATION

This sheet supplements but does not replace the technical instructions for use.

The information contained in this safety data sheet has been prepared on the basis of our knowledge of the product concerned on the stated date.

It is given in good faith and only applies to the product designated by name and may not be applicable if the said product is mixed with other substances, if unusual fitting techniques that do not follow proper workmanship principles are used, or if the product is used in a manufacturing process.

Users are also made aware that the use of a product for purposes other than those for which it is designed may expose them to hazards.

## **SAFETY DATA SHEET**
